EXPERIENCE

Gilead Sciences

Raleigh, NC

IT Project Coordinator | Project Management Office

10/2025 - Present

- Coordinate program delivery for the SAP S/4HANA upgrade across 200+ stakeholders by running weekly PMO cadence (standups & steering), publishing minutes and action items and driving 100% on-time action-item closure
- Manage interdependency tracking across 100+ SAP-dependent projects by flagging go-live collisions against the upgrade window and sequencing releases to prevent conflicts while proactively preventing potential schedule slips
- Own RAID and status governance by maintaining risks, assumptions, issues and dependencies with owners and due dates and delivering a weekly RAG report with critical alerts to ensure 100% traceability for steering decisions

Dayforce

Los Angeles, CA

Business Analyst | Public Sector, Application & Value Advisory

07/2024 - 10/2025

- Built and automated complex Excel data models and Power BI reports to track revenue-based KPIs, cutting manual reporting time by 50% and enabling senior leadership and C-suite to make faster, data-driven decisions
- Prepared executive-level reporting on revenue growth, customer growth and top customer opportunities, uncovering ~\$35M in upsell potential and shaping go-to-market strategy across the U.S. and Canada markets
- Redesigned prospect-facing Power BI reports for Dayforce's HR Reporting & Analytics module, standardizing KPI storytelling and visuals to increase demo follow-up rates and cut pre-sales demo preparation time by over 10%

Deloitte

Athens, Greece

Consultant | Strategy, Analytics and Mergers & Acquisitions (SAM)

07/2022 - 07/2023

- Developed business plan and conducted financial due diligence, leading to a landmark \$54.7 million sale of 'DeepSea.AI', a leading AI-driven vessel performance and optimization company in the maritime sector
- Advised the Greek government in formulating a sustainability-focused strategic plan for the 'GR-eco Islands' initiative, allocating \$100 million in E.U. funds to position the Greek islands as hubs of sustainable development
- Conducted financial impact analysis using an input-output model for a private equity company focused on leisure assets in the Mediterranean, evaluating a potential \$150 million investment in the 'Deep Blue Private Island' project

Lightship Chartering

Athens, Greece

Ship Broker / Ship Operator | Chartering, Operations

07/2019 - 07/2022

- Negotiated over 35 contracts valued at approximately \$50 million, generating over \$200,000 in net commissions from renowned firms such as Cargill, Louis Dreyfus Company, Norden, Bunge and MUR Shipping.
- Coordinated data collection across Athens, London, and Dubai offices, analyzing market indexes in Excel and delivering weekly dry bulk market reports to support decision-making and provide clients with actionable insights.
- Spearheaded the deployment of a SaaS contract management software, automating charter party drafting and filing to reduce processing times by more than 50%, streamlining invoicing, lay time calculations and freight collection.

Workable

Athens, Greece

Business Development Associate | Outbound

08/2018 - 07/2019

- Exceeded targeted outreach KPIs, achieving 100% of quarterly sales targets by prospecting and delivering targeted sales pitches to high-potential leads in the North American market.
- Implemented CRM systems to track customer and prospect interactions, improving sales cycle efficiency by 20% and created targeted marketing campaigns to nurture leads and drive engagement with the Workable product suite.
